

A-FAC007 fingerprint access control

- **Sleeping Function**
- **Manager Release Alarm**
- **Manager infrared remote control keypad**

Product information

Features

- Supports fingerprint, password, smart card
- Highly sensitive and durable fingerprint sensor
- Easy configurable management software for centralized control of multiple fingerprint reader
- Support both RS485 & TCP/IP communication

Specification

Fingerprint Sensor
Optical Sensor

Sleeping Current
<20mA

Stay Current
<100mA

Memory Capacity
120

Manager Quantity
2

Fingerprint input time
<1s

Identification Time
<2s

Door Relay
3A

Item Measurements/ Temperature

Width 70mm

Height 115mm

Length 35mm

Weight 500g

Humidity Temperature 20%RH – 95%RH

Operating Temperature -20°C - 60°C

Power Supply
12VDC +/- 10%
